Accommodation of Members of the Legislative Council, Representative Assembly and Economic Conference.

ORDER No. G. 4110-420—G. M. 75-29-1, DATED 25TH SEPTEMBER 1929.

With a view to meet a longfelt want, Government are pleased to direct that he building known as "Race View" at Bangalore in which till recently the Chief Commandant's Office was located and which is vacant at present, be made available for the accommodation of Members of the Legislative Council, the Representative Assembly and the Economic Conference, when they come to Bangalore on duty in connection with the work of those bodies, on payment of a rent of Rs. 2 per day per room.

The Chief Engineer is requested to issue instructions for effecting alterations necessary to adapt the building for the purposes referred to above, so that it may accommodate about 12 members at a time. The rooms may be furnished in a simple manner and a vegetarian cook employed.

The date from which the building will be ready for occupation will be notified separately on receipt of a report from the Chief Engineer after the above instructions have been carried out.

R. RANGA RAO,
Offg. *Chief Secretary to Government.*

Apprisal Form for measuring progress in Health Activities.

READ—

Letter No. C. 113, dated the July 1929, from the Sanitary Commissioner in Mysore, forwarding a copy of letter received by him from Dr. Sweet and recommending that the 'Apprisal' form therein referred to may be approved for adoption in the Cities with a population of 50,000 and over, with a view to measure the progress of health activities therein.

ORDER NO. G. 4068-75—SANY. 19-29-2, DATED 24TH SEPTEMBER 1929.

It is reported that the proposed Apprisal form is drawn up on the American model with necessary alterations to suit local conditions and would be very useful in measuring the progress of health activities in the Bangalore and Mysore Cities and the Kolar Gold Field area, whether carried on by the State, District, Municipal or private agencies. The Central Health authority at each inspection of the areas concerned allots the points scored by each area on every item of health work and can estimate definitely the progress made by the Health Officers since the previous inspection. When these scores come to be published, it is expected that healthy rivalry will be set up amongst the Cities for improving the conditions therein. The Sanitary Commissioner in strongly recommending its adoption in Mysore, suggests that it may be published as a Public Health Department Bulletin with a suitable preface to be prepared later on.

Government agree with the Sanitary Commissioner and Dr. Sweet that the form is likely to prove useful and furnish a standard for measuring progress in Health activities. The form is accordingly approved and appended to this order.

The proposal to publish it as a Public Health Department Bulletin with a suitable preface is also approved. The Sanitary Commissioner is requested to take necessary further action in the matter in consultation with Dr. Sweet.

R. RANGA RAO,
Offg. *Chief Secretary to Government.*
